A few weeks ago he rented an office on New York avenue, where he established a force of clerks, whom he deputized to frank immense quantities of protection speeches througout Pennsylvania as campaign documents. In order to supply these speeches he addressed a letter to the Public Printer, inclosing a large check with an order for several hundred thousand copies of the speech of Mr. McKinley of Ohio—a strong protection argument in line with the Republican policy. The member referred to writes an execrable hand, but the officials who read the letter believed they had succeeded in making out the name of the member who had delivered the speech. The speech was accordingly supplied, and for several days the clerks worked.
